PAWAN PATIL

AI Product Engineer | Forward Deployed Engineer | Frontend & GenAI Systems
Nagpur, Maharashtra, India | pawanpatil2305@gmail.com
GitHub: github.com/Pawanp-23 | Portfolio: portfolio-pawanpatil.vercel.app | LinkedIn

PROFESSIONAL SUMMARY

Forward Deployed Engineer intern at Eigi AI, where I shipped the company's official website, eigi.ai. B.Tech IT student with an Electronics & Telecommunication foundation, building AI-enabled products, Retrieval-Augmented Generation (RAG) systems, real-time voice agents, and production-ready React applications. Hands-on across full-stack development, LLM APIs, vector search, GIS and cloud deployment, with a record of leading teams and shipping live products.

TECHNICAL SKILLS

AI / GenAI: LLM APIs, RAG, Embeddings, Vector Search, Prompt Engineering, AI Agents, Voice AI, Multimodal ML, SHAP
Frontend: React.js, TypeScript, JavaScript, Vite, Tailwind CSS, Framer Motion, Responsive UI
Backend / Data: Python, FastAPI, Node.js, Express.js, REST APIs, MongoDB, Atlas Vector Search, Firestore, SQLite
Real-time / Voice: Deepgram STT, Cartesia TTS, WebRTC, WebSockets, Silero VAD, Gemini Live, Twilio
Tools / Deployment: Git, GitHub, Vercel, Render, Docker, API & System Integration, GeoJSON
Systems / Other: QGIS, OpenStreetMap, MATLAB, C, C++, Embedded C++, Arduino Uno, 8051 Microcontroller

EXPERIENCE

Forward Deployed Engineer Intern — Eigi AI | eigi.ai **2026 – Present**

- Shipped the **official company website, eigi.ai** — an interactive product story for Eigi's AI teammates and forward-deployed engineers, with a live "Eigi computer" demo and the Buddy assistant entry point.
- Built fde.eigi.ai, the Forward Deployed Engineers site, and admin.eigi.ai, an invitation-only console for subscriptions and firm providers with passwordless email one-time-code sign-in and role-scoped access.
- Translate ambiguous product requirements into structured UI flows and API-integrated React.js interfaces; ship iterative releases with backend and leadership stakeholders.

Project Lead / App Lead — Maharashtra Remote Sensing Application Centre (MRSAC), Nagpur **Jun 2026 – Jul 2026**

- Led React.js development and software architecture for a GIS-based EV Smart Platform; owned the alerts, user profile, station discovery, service-centre lookup, and analytics modules.
- Integrated field-verified GIS data covering **8 charging stations, 34 charging points, and 5 battery service centres**; delivered reusable GeoJSON/Shapefile datasets and a functional web platform.

Industrial Intern — Bharat Sanchar Nigam Limited (BSNL) **May 2025 – Jun 2025**

- Rotated across NIB, FTTH, Routing & Networking and Sales; exposure to optical-fiber communication, broadband infrastructure and network architecture.

Diploma Engineer Trainee — Subros Limited, Pune **Jan 2024 – Jun 2024**

- Quality control, water-leak testing, HVAC assembly and production checks under 5S and safety standards.

PROJECTS

RAMEI — Reliability-Aware Multimodal Emotion Intelligence | AD-INFOCOMM Internship Project **2026**
PyTorch, WavLM, Whisper, DeBERTa, ViT, FastAPI, React, TypeScript | GitHub

- Fuses voice, words and face with per-moment reliability estimates, calibrated confidence and abstention; FastAPI inference service and React dashboard with live mic/camera analysis.

Clinic Voice AI + RAG | AI Voice Agent, Knowledge Retrieval
Python, OpenAI API, WebRTC, MongoDB Atlas Vector Search | Live: citycare-frontend-wlw8.onrender.com

- Designed a real-time voice AI pipeline using Deepgram speech-to-text, Cartesia text-to-speech, OpenAI LLM processing, WebRTC streaming, and Silero voice activity detection.
- Implemented RAG with embeddings and MongoDB Atlas Vector Search to deliver grounded, knowledge-based conversational responses for a clinic assistant.

Whitfield Warehouse Management System | Full-Stack Web Application
React.js, REST APIs, Render | Frontend: whitfield-frontend.onrender.com | API: whitfield-api.onrender.com

- Built and deployed a full-stack warehouse management system for inventory visibility, warehouse operations, and stock-movement workflows; integrated the React.js frontend with REST API services.

AI-Based Predictive Personnel Stress & Welfare Monitoring System **Smart India Hackathon**
Team Lead | Machine Learning, SHAP, RAG, REST APIs, React.js

- Led architecture across ML risk scoring, SHAP explainability and RAG/API integration; drove privacy-aware welfare recommendations, frontend delivery and documentation.

Other Live Builds: LRN Interview Readiness (lrnprep.com) | BlindSpot, PromptWars (blindspot-s5sh.onrender.com) | Team Codex Canteen (team-codex-canteen.vercel.app)

LEADERSHIP

Coordinator — Advantage Vidarbha Startup Summit **Nagpur**

- Coordinated event operations with founders, investors, entrepreneurs and industry leaders.

EDUCATION & CERTIFICATIONS

B.Tech, Information Technology — St. Vincent Pallotti College of Engg. & Tech., Nagpur **SGPA 7.0 | In Progress**

Diploma, Electronics & Telecommunication Engg. — Government Polytechnic, Nagpur | 82% **2024**

Class X — Somalwar High School, Nagpur | 78% **2021**

Certifications: MATLAB Onramp (MathWorks) | TCS iON Young Professional | MS-CIT | College Hackathon Certification
